

Burn Rubber Undercover at Perth's Biggest & Best Indoor Kart Centre.

Why Indoor Kart Hire O'Connor is **THE** place to book your next function.
Compare the price and ask the following questions before making your decision.

KARTS: Question: What level of karts will we have?

Indoor Kart Hire O'Connor has **ADVANCED LEVEL RACEKARTS** especially designed for our track with a maximum speed of up to **50KPH**. We always maintain a high level of daily maintenance on our karts to keep them in top mechanical condition.

TRACK: Question: How many karts on track?

Indoor Kart Hire O'Connor's track is large enough to be registered for **10 karts** on track at one time. We test each kart to keep them as equal as possible to make for fair competition. With up to **10 karts** on track it adds to the excitement, gives you more track time with less waiting time, thus more value for money. We have a Grand Prix timing system with printout.

TRACK TIME: Question: How much track time per person can we expect?

With our **recommended** persons per hour you would **expect** to have at least 3 x 8 minute rides per person. (Subject to 10 karts being operational and a 2-minute change over time per ride.) While we always endeavour to have all 10 karts operational, occasionally unforeseen events can happen prior to or during a booking. Thus we cannot guarantee 10 karts or the estimated track time above. If you wish to hire both our Racetrack and Slidekart tracks please ask for price list.
